2. During [redacted]'s assignment to Liaison Officer, FBIB, he has demonstrated exceptional administrative ability and comprehension of intelligence requirements. He has discharged responsibilities in guidance of FBIB collection operations and in analysis of FBIB functions and capacities at a much higher level than contemplated in the establishment of the Liaison Officer position. In the Mediterranean position proposed for him he will immediately and for a period of approximately twelve months be performing the normal duties of Chief, Mediterranean Bureau, CAF-13.

STAT

3. It is believed that these considerations justify an exception to administrative policy in the requirement of specified time in grade for promotion, and it is requested that favorable action be taken on attached form 37-3 proposing his advancement to CAF-12.
